Gentlemen:

THE CAT'S OUT OF THE BAG!

Here's the country's first correctly designed Fluorescent Lighting Fixture for a residential Dining Room and Living Room! (See the enclosed folder!!!*)

And it must be a "winner", judging from the way the smart fixture men who have seen it are going for it.

It took us seven months to develop it, but it was well worth the time and effort. The first man to see it - a fixture jobber from Texas - ordered 12 at once!

You've been in Residential Lighting long enough to know when an item is really "HOT"; and if this new Fluorescent isn't the hottest selling Fluorescent fixture in anybody's showroom today, we simply don't know our business.

Frankly, we would rather not have you, or any of our other good dealers, order very many right now. We haven't made up enough yet to go around, and we would like wide-spread distribution while it's brand new.

But you will want one or two; and we can fill your order for those immediately.

50/33-1/3% is your discount on the Fluorescent Line. But wire or mail your first order in at once, please. Today if possible.

Cordially,

H.A. FRAMBURG & COMPANY

Stanley A. Framburg

Stanley A. Framburg
Sales Manager.

SAF/my

* We will also supply you with quantities of the enclosed folder, ready for your imprint, at \$1.00 per hundred.
